## Software Tester (QA Automation)

## Work Experience

### NEORIS (Nov 2022 - Present)

#### Software Tester - QA Automation

- Analysis, design, and execution of automated tests for both frontend and backend applications.
- Test execution in Postman and documentation in Jira, working within an agile framework.
- Creation of over 25 automated test cases in RobotFramework, covering database queries, API transactions, and verifications between the backend and frontend.
- Execution and testing of Jenkins pipelines working in a DevOps team, modernizing development on the IBM zOS mainframe.
- Development of general-purpose applications to automate business processes and data generation or retrieval for testing.
- Conducting training sessions and presentations on various testing-related topics.
- Significant impact on the business through the deployment of automated personalized email deliveries, streamlining internal news distribution, and an automatic generation of debtor reports based on input data.
- Providing comprehensive support to various teams, introducing, instructing, and collaborating with different testers to implement automation strategies.

### FREELANCER (2018 - Present)

#### Music Production

- Creation of instrumentals in various musical genres.
- Recording of professional vocals and instruments.
- Mixing and mastering of songs for various local artists.
- Music production, guidance, and assistance in the creative process.
- Foley recording and video editing to add audio effects to silent videos.
- Use of FL Studio as DAW.

## Programming Languages and Tools

Python | Tkinter | RobotFramework | Selenium | Git | HTML/CSS/JS  
Postman | SQL

## About Me

I consider myself a motivated and change-resilient individual, always seeking to contribute my knowledge continuously in order to add value to the team. I believe in a collaborative approach and a positive attitude towards challenges as the path to overcome obstacles and work towards continuous improvement. I'm always willing to help make things change for the better, that is what drives me the most.
